## UNIT 1

Modern Pharmaceutical Company established in 1999 as the first antibiotics production local factory. As a first stage, it began to operate production lines of (capsules & dry syrup) solid pharmaceutical forms. After that, the company expanded its current production lines and added new production lines, such as Tablets, and Effervescent Sachets, which are produced in two separate factories, the B-lactam antibiotic (Penicillin and the Cephalosporins factories).

In the next stage, the company carried out contractual manufacturing with a fraternal factory to add new pharmaceutical products such as syrup, ointment, cream, suppositories, soft gelatin capsules, Effervescent Sachets, and nose and ear drops, which cover the local market and contribute to the national industry development.
